

Klove is a major importance in our househould. It is very needed and positive for my 4 children. I do not need to worry about what is on. Klove is positive. I feel like if they were on every city, then it would be wonderful. We moved from a City were they were to a city were they are not. It is very disappointing. I would move to a city just for that station. Please don't change it so it would not be heard. It would be a short handed to the local communities that they serve Thank you.
